About the institute

Accurate Institute of Management & Technology (AIMT) was incepted in 2006 under the aegis of Accurate Education & Research Society. During the same year, the institute attained recognition from AICTE and MHRD. It is accredited with ISO 9001:2000 and ISO 14000:2004 certification. In 2007, the institute commenced its first batch of PGDM program. AIMT is affiliated to Uttar Pradesh Technical University (UPTU), Lucknow and follows the syllabus and course structure prescribed by UPTU.

Academic

AIMT offers two years full time PGDBM/PGDBA programme with dual specialisation in the areas of finance, HRD, IT, marketing and international business. The course consists of six terms wherein the two areas of specialisation are to be opted at the time of the fourth trimester in the second year. AIMT pedagogy involves lectures, case study, projects & assignments, seminars & workshops and guest speakers among others.

The 2009-11 batch of the institute comprised of 120 students, majority of which students had less than 2 years of experience. Majority of the students (33%) had management background. Admission to the PGDBM/PGDBA programme is through CAT, MAT, XAT and ATMA entrance exams followed by group discussion and personal interview. The institute gives preference to students with certified courses like CA, CFA and FRM among others.

AIMT has Centre for Corporate Relations (CCR) which aims at building long-term relationship with prominent corporate houses. CCR organises activities like industry-institute interface, management

development programmes, seminars, workshops, personality development framework, pre-placement counseling for enhancing the exposure of the students to the corporate world and to act as an interface between the institution and the industry. Since inception, CRR has a 100% placement record.

Infrastructure

AIMT is spread over 16 acres of land providing a rich learning experience with Wi-Fi enabled building and technology support to facilitate teaching, learning and personality development. The infrastructure facilities of the institute comprises of air-conditioned classrooms, computer labs, hostel, transport facilities, cafeteria and a library.

The institute operates through 15 classrooms and has six computer labs consisting of 45 computers with internet connectivity on all the computers. The air-conditioned library is well stocked with approximately 18,578 books. The institute also provides hostel accommodation facility with a total intake of 360 students. It also has separate hostels for boys and girls with adequate facilities. AIMT also offers transport facilities to its students.

AIMT also has a student lounge area wherein activities like yoga, morning walk, light exercise and various other indoors and outdoors activities are carried out.

Faculty

AIMT functions through a well-qualified and experienced faculty team, majority of which come from an MBA background. It has 45 full-time faculty member and around five visiting faculty members. The student to faculty ratio of the institute is 1:8.

Ms Poonam Sharma on management education system in India

Management education in India is fast undergoing a radical change. The two current developments sweeping India, namely liberalisation and globalisation, have had a considerable impact on management education. Today there is a mushroom of management institutions in the country. The question is that, what impact they will cast on the quality of management education and where will this proliferation leave us? The qualities of managers who are produced by these management institutes are also being questioned.

Business schools have created some unique characteristics in their value creation, branding and niche positioning. At the same time corporations are intensifying their efforts for management development and the number of corporate universities is on the increase.

When we talk about the management education, we are basically referring to the shaping up of the student to develop the competency and capability either as an intrapreneur (to join and help an organization to grow) or as an entrepreneur (to establish and grow one's own organisation). This capability does not necessarily always come from possessing a piece of paper whether called "degree" or "diploma" in Management, but also by means of developing the will & skill to contribute for Self reliance and self nourishment in nation building

Placements

The placement activity of AIMT witnesses a host of companies in both domestic as well as international market. Companies from various domestic sectors, both private companies and PSUs like banking, IT, marketing, heavy industries, IB and publications have been recruiting AIMT students.

For the batch of 2009-11, 92% were hired by domestic private companies, 4% from PSU and 2% in the international market. The average salary offered to students placed was Rs 605,000 p.a. and 650,000 p.a. in the domestic private companies and PSU companies respectively. Some of the prominent companies that were involved in hiring AIMT

students from various sectors include Bank of Maharashtra, Oriental Bank of Commerce, ITC Limited, Cease Fire, Allied Strips Limited, Arihant Publications and Mobile Oil Gas Company among others.

Industry Visits

The institute encourages students to undertake industrial visits to various factories and manufacturing units in order to gain practical insights on working of the varied industries. Some of the industries visited by the students include Bisleri Limited, Halonix Limited, Moser Bear and Dixon Technology among others.

International Exposure

AIMT conducts foreign educational

tours to give its students an international exposure and also an experience of working in a multicultural environment. For this purpose, the institute has tied up with Nanyang Technologies University, Singapore and The University of Auckland, New Zealand to make students familiar with the global environment and the international business units & their workings. In 2011, 30 students arrived in AIMT and maximum students exited abroad under the foreign exchange programme.

Background

Asia-Pacific Institute of Management (APIM) was established in 1996. During the same year, the institute attained recognition from AICTE and in 2005, the institute got accreditation by NBA and recognised by AIU.

Academic

APIM offers the two year full time PGDM, PGDM (Marketing), PGDM (International Business), PGDM (Banking & Financial Services). APIM offers two years full time PGDM programme with specialisations in the areas of finance, HRM, international business, marketing, operations management, IT and decision science. The PGDM programme offers a dual major, whereby a student can choose courses from two areas of specialisation. The institute has an intake capacity of 300 students for its full time PGDM programmes.

APIM also offers three year part time Executive PGDM programme in the areas of finance, HRM, marketing, operations management, IT and decision science. The institute has also signed MoU with Jamia Hamdard University to start PhD programme in various discipline of management. This programme can be taken up by the academicians from the universities, business schools, colleges, as well as senior executives from the corporate world.

The institute considers the scores of MAT, CAT, XAT and GMAT for the admissions of the students followed by group discussion, personal interview & written communication.

Academic Exchange Programme

APIMS also provide foreign exchange programmes to its students for which it has signed an MOU with

Grant McEwan College of Canada. The memorandum covers broad range of activities including study opportunities for visiting and international students, exchange programmes for faculty, students and staff, articulated student transfers and joint research activities. The institute has also tie-up with IDRAC International School of Management, France for student and faculty exchange programme. In 2010-11 academic sessions, 12 international students arrived in APIM and 13 students went to IDRAC under the foreign exchange programme.

Infrastructure

APIM has strategically located, State-of-the art, Wi-Fi enabled campus in New Delhi. The infrastructural facilities of the institute include air-conditioned classrooms, separate hostels for boys and girls, auditorium, amphitheater, lecture theatres, computer lab, a library and a cafeteria. The lecture theatres of the institute are well-equipped with LCD, projectors, video and audio systems.

The institute has 25 classrooms, an auditorium with a seating capacity of 250 persons and an amphitheater with a seating capacity of 500 persons. The library of APIM is well equipped with more than 40,000 books; over 2,800 project reports and over 5,000 journals. The institute has also subscribed to more than 5,500 online full text journals; ICFAI University Press journals, Harvard Business Review; Saga Online journals and more than 1,700 CDs. The library has institutional membership of a number of prestigious libraries like British Council, American Library Center, National HRD Network and Magindia.com. The library has subscription to many leading online database services. APIM's state-of-the-art Computer Center has 356 high performance Pentium nodes (C2D) connected to six

Dr A N Sarkar on opportunities for Indian Business Schools

Indian Business Schools have huge opportunity ahead of them. India is developing fast and we need managers to spearhead the developmental activities of the industry. But they should not imitate the west, rather focus on the unique problems and opportunities being faced by our country. They must therefore research on how they should think about and what they should do to further explore the competencies required by the industry. Creative thinking is a must to be developed followed by strong views on how the leadership, adaptability, learning attitude and ethical behavior skills matter to people at all levels. These skills are very important and they must be developed to make them capable enough to handle the complex problems emerging today as the solution to all these problems needs local answers.

They must also get involved in the research on these problems and suggest solutions which must be published in global journals, and that knowledge can be used by other countries facing similar challenges.

high- speed servers in aLAN (Domain) environment. Further opportunity to develop expertise on the AS/400 system used IBM, being widely used by Fortune 500 companies, also exists NAS storage, firewall, network printer and scanners are integrated in LAN to optimise utilisation of the resources. The Information Resource Centre (IRC) is the nerve centre of APIM. The center is equipped with Windows 2003 Domain ,compilers for languages like C, C + +, Relational Data Base Management Systems like ORACLE 9i and other packages like MS Office, MsProject, Visual Studio, DotNet, FoxPro, SPSS etc. The institute also provides separate off –campus hostel accommodation facility for both girls and boys. The hostel has AC & Non AC residential blocks which offer a

supportive environment for living and learning.

Faculty

APIM has well experienced and qualified faculty members. The institute has 42 full time and 15 visiting faculty members. The student to faculty ratio of the institute is 15:1. Majority of the faculty members are Doctorates.

Placement

APIM has a well established Centre for Corporate Relations (CCR), which facilitates the students in their career development The CCR is the hub of activities which drive the 3-I (Institute –Industry - Interface) initiative. It develops and maintains a close

relationship with corporate through guest lectures, corporate get together, industry visits and frequent interaction at both institute and student level. CCR provides the necessary guidelines to decide the career paths by counseling, guiding, motivating and mentoring. 100% placement was achieved and the students have been placed in major industries with packages ranging from Rs 600,000 – Rs 1,200,000 including International placements. Many of the companies have recruited large number of students from our Institute, these include ICICI Bank, Relaxo, HDFC Bank, Axis Bank, Copal Partners, NIIT, Balaji Tele films, Janlakshami, Approach International, Lloyd electrical, VIP Industries, Nestle, Capital IQ, American Express, Reliance digital and many other companies.

About the Institute

DAV Institute of Management, Department of Business Studies (DAVIM-DBS) was started in 1997 and is a part of one of the largest educational trust of the country. The institute attained recognition from AICTE in its year of inception. The institute is in the process of gaining NBA accreditation. DAVIM-DBS has been affiliated to Maharshi Dayanand University, Rohtak.

Academic

DAVIM-DBS offers two years full time MBA programme with dual specialisations in the areas of Finance, HRM, International Business and Marketing. The institute has an intake capacity of 120 students per batch (from 2011) for its full time MBA programme. It also offers MBA industry integrated programme which helps in bridging the gap between the student and the industry through all round development of skills approach. In house training program is an essential component of the course as it emphasises on personality development, team management, communication skills, and presentation skills. DAVIM-DBS also offers MCA, and undergraduate programmes like BCA, BSc. Computer science, BBA, BBA – CAM, BBA - Economics, BBA - Industry Integrated and BBA – Hospitality Management and is a center for professional courses including, CA, CS and ICWA. The institute also has academic collaboration with Waiariki Institute of Technology, New Zealand under which it offers courses like Bachelor of Applied Management, Bachelor of Tourism Management Programme, Bachelor of Computing System and Diploma in Hospitality Management.

The 2009-11 MBA batch of the institute consisted of 85 students,

91% of which were fresher's and 47% of which were female. The 2009-11 batch consisted majority of students from commerce background followed by management background. The institute considers the scores of MAT for the admissions of the students followed by group discussion and personal interview. Preference is given to students with CA and having certified courses such as CFA and FRM. For 2009-11 batch, 90 percentile in MAT was considered as the minimum cut off percentage for admission in DAVIM-DBS.

Training & Development

DAVIM-DBS has Training Development & Consultancy Centre (TDCC) which provides consultancy to corporate clients as well as conducts in-house training and development programmes. The Centre is known for development of design for training programs in the field of applied part of management and application of information technological knowledge for the development of industry as a whole. All the cultural and co-curricular activities organised by the students is supported by TDCC.

Infrastructure

DAVIM-DBS has excellent infrastructural facilities that include computer laboratories, free internet, a library with computerized catalogue and issue systems, a seminar hall and classrooms equipped with audio-visual gadgets. The institute has 8 classrooms with a total intake capacity of 120 students per batch dedicated to MBA Programme of Department of Business Studies. Also, the institute has three computer labs consisting of 60 computers per lab supported by high-end equipment's and latest software's dedicated to the programme.

DAV Institute of Management, Faridabad

Dr N K Sharma on Opportunities and Challenges for the Indian B-Schools in next five years and his Plans to tap these opportunities:

The phenomenon of economic and human resource sector reforms have compelled the policy formulators to review the overall mechanism in context to imparting education and learning in one of the most dynamic and growing nation. With globalisation and reforms, the market has now been thrown open to the established global institutions and that's one of the major challenges as well as an opportunity that the existing institutions might come across in coming five years. In such a competitive scenario with large number of institutions emerging every year on the domestic front, only the tough ones, focusing on quality and continuous improvement shall survive.

DAV Institute of Management, a part of DAV College Managing Committee, one of the largest education missions in the world, has always build-up on its strengths. DAVIM since its inception in 1997 has been striving for quality and continuous improvement in its intellectual and infrastructural resources, and has always believed in sustainability. At DAVIM the very basic philosophy is of spreading education as a right for every citizen, and thus, attracts merit and talent, and works on its long-term holistic performance. The curriculum not only focuses on the academia but also on the overall spiritual, ethical and value based grooming of its students. This is enforced by the equivalent focus on the overall development of the faculty and other influencing parameters that the student interacts with. The personal human touch and a family environment differentiate DAVIM from rest of the institutions in the sector.

The institute has developed its own Learning Management System (LMS), which caters to the networking need of staff and students. LMS is an electronic interaction platform for the students and their parents to be in constant touch with the institute and the faculty. Student registration, content related to curriculum, on-line lectures, assessment, online software for grading, faculty feedback, attendance in class, conducting online evaluation, etc. has been installed on LMS which can be selectively accessed by students, faculty, programme coordinator and administration to get the current status on-line.

DAVIM-DBS has fully computerized library with spacious and comfortable reading rooms. The library of DAVIM-

DBS is well equipped with more than 49,658 books, over 120 print journals and around 8,000 e-journals available through various online databases. The institute also maintains a selective collection of CDs which include training videos and educational films. The library is also equipped with electronic library which provides a single window access to all the electronic resources subscribed by the library.

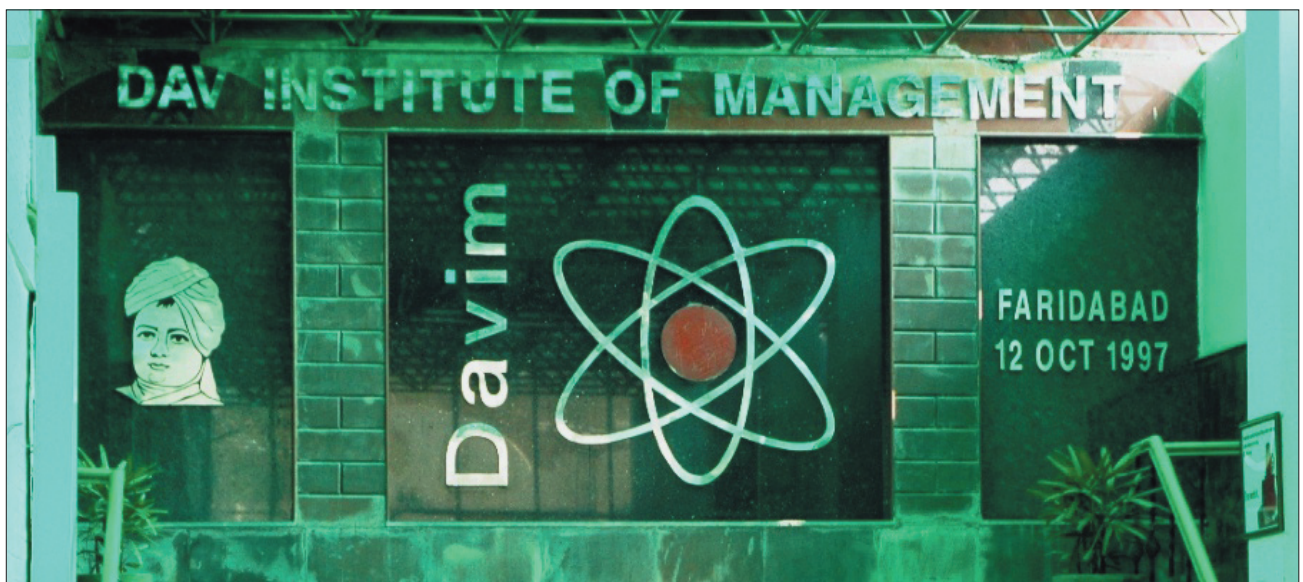

Faculty

DAVIM-DBS has well experienced and qualified faculty members. The department has 22 full time, five part time and eight visiting faculty members for the MBA Programme. The student to faculty ratio of the institute is 8:1. Majority of the faculty

members are from MBA background.

Placement

In 2011, 96% of DAVIM-DBS student's got placed in domestic private companies and the remaining 4% started their own entrepreneurship ventures. The average salary offered to students placed in domestic private companies was Rs 240,000 p.a. Companies from different sectors such as banking, manufacturing, retail, KPO, BPO & HR outsourcing and telecom visited the campus for recruitment of the students during 2011. Some of the companies that have hired students in 2011 include HDFC, Reliance, ICICI Bank, Imperial Auto, Ma-Foi, Vodafone, Bharti Telecom, Vishal Mart and Ali Research.

About the Institute

Delhi School of Management (DSM) was established in 2009 with the up-gradation of Delhi College of Engineering (DCE) into Delhi Technological University (DTU). It was granted an autonomous status as DTU in 2009. The first batch of two year full time MBA programme was admitted in academic session 2009-10. DSM envisages at making distinctive future managers keeping in with the tradition of DCE (and now DTU) of excellence in education established for the engineering discipline.

Academic

DSM offers a two year full time MBA programme with dual specialisation thereby developing the students' skills to cater the requirements of a competitive environment. DSM's MBA graduates can specialize in both; functional areas such as marketing, finance and human resources and technical areas such as supply chain management, IT management and knowledge & technology management. It follows a semester pattern and offers seven to eight courses per semester.

DSM's pedagogy involves term projects, team activities, case studies and guest lecture series among others. The 2009-11 batch of the institute comprised of 60 students, majority of which were fresher students. Majority of the students (95%) had engineering background. Admission to the MBA programme is through CAT entrance exam followed by group discussion and personal interview. Aided by the state-of-the-art infrastructure, DSM incorporates lectures, case studies, seminars, business games, simulation exercises, mini projects, unstructured group works and field visits in its teaching methods.

To allow students to gain on the job training and apply the classroom knowledge, an eight-week summer internship has been made an integral part of the curriculum. Further, DSM offers various societies for the students to be part of such as public relations club, business & entrepreneurship club, cultural club, finance club, marketing club, quiz club, sports club etc.

Infrastructure

Aided with state-of-the-art infrastructure facility, it provides a rich learning experience to students. The infrastructure facilities of the institute comprises of classrooms, computer labs, hostel, library and knowledge park which has state-of-the art connectivity and is networked with industries and R&D institutions. DSM operates through four classrooms and has one computer lab consisting of 30 computers with internet connectivity. The library is well stocked with approximately 5,000 books. The institute also provides hostel accommodation facility and has separate hostels for boys and girls with adequate facilities.

Faculty

DSM functions through a well-qualified and experienced faculty team having an MBA or PhD background. It has 11 full-time faculty members and around 10 visiting faculty members. The student to faculty ratio of the institute is 6:1.

Placements

The placement activity of DSM witnesses a host of companies in domestic market. Companies from various domestic sectors, both private companies and PSUs like finance, IT, research, operation, hospitality and education have been recruiting DSM students.

About the Institute

Entrepreneurship & Management Processes International (EMPI) was founded in 1995 in New Delhi. The institute got the recognition from AICTE and MHRD in 1995 and its programs got the recognition from AIU in 2010. EMPI is now ISO 9001-2008 certified institute. It is affiliated to Mohan Lal Sukhadia University, Rajasthan, for its PhD programme. The institute has also received approval from the Anna University Coimbatore for conducting PhD/Mtech

Academic

EMPI offers two years full time PGDM programme with specialisation in finance, HRM, IB, marketing, operations, advertising communication, and entrepreneurship. The institute also has dual specialisation options. The institute also offers PhD in management.

The 2009-11 batch of the institute consisted of 120 students, 31 of which were having prior work experience. 37% of the total students were females. Majority of the students had a commerce background.

The institute considers the scores of MAT, CAT and EMAT for the admissions of the students followed by group discussion and personal interview. Students with CA and having certified courses such as CFA and FRM are given the preference.

The Personality Assessment Centre, Enhancement & Upgradation processes (PACE – UP) forms the mainstay of the admission process of the institute with selection criteria being the presence of certain specified behavioral characteristics of leadership and management.

The institute has been regularly associated with various leading corporate houses (including both national and international) on different projects and initiatives including Apple Computers, ICICI Bank, HDFC, MCX, The Boston Consulting Group, Indian Express and CNN-IBN amongst others.

Foreign Exchange Programme

EMPI has tie-ups with various foreign universities, for its foreign exchange programme as well as offers customised training modules for international students.

In 2011, the institute has tie up with EAFIT, Columbia; California University, US and Tatung University, Taiwan. In 2009-11, 3% students went abroad and 44% students arrived in EMPI under the foreign exchange programme.

Infrastructure

EMPI has a residential campus, located CSKM educational complex in the southern suburb of New Delhi. The institute's campus is Wi-Fi enabled with infrastructural facilities including fully air-conditioned and well-equipped classrooms with LCD projectors and audio systems.

EMPI's Apple Mac Multimedia Lab (Mac Lab) is specialised in focusing on content creation, e-learning, computer graphics, digital video, audio production and open source application development. The institute has two computer labs consisting of 242 computers with Apple digital technology. EMPI has a digitised well-stocked library. The library has a wide range of over 35,000 books.

EMPI is a fully residential institute and provides separate hostel accommodation facility for both boys

Foreign students at EMPI Campus

Mr Gurnam Saran on the opportunities for Indian Business Schools in the next five years

The quality of the next generation of business leaders will be determined by the ways in which business schools respond to a host of dramatic changes emerging in the environment of higher education. While specific initiatives will vary widely, one thing seems certain: business schools will need to be more developmental, more innovative, and ready to connect with globe in all respect than ever before.

The biggest opportunity for existing business schools over the next five years is to lead change in management education to support developments towards a sustainable and value-orientated society. That development will consist of an open academic job market, distance management and teaching, global governance, and sustainable business models as well as sustainable development in terms of imparting consultancies and MDPs' to the existing industry needs.

and girls. The institute conducts its executive fitness programme in the campus, which provides facilities for yoga, karate etc. The campus has in built facilities for lawn tennis, table tennis, badminton, football and a well-equipped multi facility gymnasium. The institute also provides medical.

EMPI also has Amphitheater where it holds major functions and events with a capacity of 600 people. The amphitheater is also WI-Fi enables where students can carry out their discussions and do the projects work in the open air.

Faculty

EMPI has well experienced and qualified faculty members. The institute has 39 full time faculty

members, 31 visiting and 4 part time faculty. Majority of the faculty members are from MBA and PhD background. The student faculty ratio is 13:1

Placement

EMPI provides placement to its students with companies in the domestic market. In 2011, companies from different sectors such as banking and finance; research; education; manufacturing; media and advertising; FMCG, hospitality; retail and logistics among others visited the campus for recruitment of the students.

During 2011, all students got placed in domestic private companies. The average salary offered to students placed in domestic private companies

was Rs 479,000 p.a. Some of the companies that came to the campus for the placements include HDFC, RBS, Axis Bank, Capital IQ, Deloitte, TIME, Shine.com, HCL Tech, Nestle, HLL, Daink Jagran, Hitachi, GATI, Matrix and Philips among others.

About the Institute

Galgotias University, School of Business (GU-SoB) is affiliated to Galgotias University.

Academics

GU-SoB offers two years full time PGDM and MBA programs with specialization in finance, HRM, IT and marketing; and three years full time BBA program. The school has 660 students in PGDM and MBA along with 100 students in BBA. The school considers the scores of 10+2, CAT, MAT and XAT for the admission of the students, followed by group discussions and personal interviews.

GU, School of Management also offers management development programs in management, which focuses on the objectives of achieving conceptual learning and skill development of the managers. The school also contributes to research and consultancy. It undertakes consultancy projects in divergent activities in management and information technology stream.

GU-SoB conducts a number of co-curricular and extra-curricular activities such as debates, group discussions, music programs, quizzing, management games, personality development workshops and talent shows. The school also organises industry visits in order to enable students gain practical insight on workings of varied industries. GU-SoB also conducts project work, seminars, field assignments and case studies to impart knowledge and skill to the students.

Infrastructure

GU-SoB is spread over 50 acres of land area comprising of wi-fi enabled campus, state-of-the-art classrooms, computer centers, library and hostel

facility. The classrooms of the school are well equipped with facilities such as overhead and LCD projectors. The computer labs are well equipped with computers and Internet connectivity.

GU-SoB has air-conditioned and fully automated library with 10,595 books; more than 2016 titles; 81 journals - national and international. The library also subscribes to various magazines, periodicals and newspapers. The school also provides hostel accommodation facility accommodating up to 700 students per annum.

GU-SoB has a well-equipped gymnasium and athletic centre; and also provides other facilities for indoor games like table tennis, chess, carom and outdoor games like cricket, volleyball, football, badminton, etc can be played. The campus also has the facility of a cafeteria.

Faculty

GU-SoB has 52 full-time and 15 visiting faculty members. The student to faculty ratio in the institute is 14:1. Majority of the faculty members are MBAs, followed by PhD background.

Faculty Development Programme

The school conducts faculty development programme in order to create widespread academia corporate interface. Corporate members also are invited to GU-SoB campus for interactive sessions with the faculty members in order to align the curriculum to meet the industry needs.

Corporate Resource Centre

GU-SoB has launched several programmes for creating awareness and acceptances of students with the corporate. The school conducts 'Corporate Interface Seminar Series'

Professor (Dr) Renu Luthra on the problems faced by the Business Schools

1. Low job readiness and low employability quotient index, because most of the students lack work experience and have poor academic background. As such they lack enough sense of business and corporate conditioning. Their awareness levels are also very low.
 2. Mismatch between students' aspirations and what the job market can offer them. Corporate offers are based on the candidate's potential to contribute to the company, whereas the student aspirations are based on his material family background and not based on his skills and abilities. Hence the contradiction.
 3. Curriculum is not aligned to domain knowledge, which is required at the entry level. Thus students lose their interest, as they are unable to relate to any experience or likely scenario.
 4. Students mainly without work experience, normally takes a longer time to understand. The corporates are working on short-term horizons and thus unable to give enough time to new entrants to understand the company's requirement for the job.
- B-Schools should be prepared to incorporate the changes required to address the above issues.

under which practicing managers are invited to the campus for interactive sessions with the students on different sectors. These seminars enable the students to acquire sectoral awareness and knowledge in application of management theories in different sectors and scenarios. Visiting faculty from the industry visit campus to acquaint the students with entry-level job scenario.

In addition, GU-SoB also organises national conferences, seminars and workshops. Some of the prominent events are a workshop on 'Negotiation Skills', conference on 'Capital Markets Reforms in India - The Road Ahead', an HR Conference 'HR Yesterday, Today & Tomorrow', and Finance Conference on 'Raising of Finance - When, Why

& How?' etc. The school also involves corporate managers in the interview panel for selection of faculty members as well as admission of students.

Placements

GU-SoB has a campus placement cell which provides placement to its students with companies in the domestic market. Companies from different sectors such as finance, marketing, manufacturing, insurance and IT industry are being contacted for recruitment of the students.

About the Institute

Great Lakes Institute of Management (Great Lakes) was established in 2004. The institute has academic collaboration with Stuart School of Business, Illinois Institute of Technology, US and research collaboration with Yale University. The institute has entered into MoUs with Nanyang Technological University of Singapore; Universiti Tun Abdul Razak, Malaysia; IIT, Madras; Indira Gandhi Centre for Atomic Research, Kalpakkam, Caterpillar Foundation amongst others.

Academic

The institute offers post graduate management courses such as Post Graduate Program in Management (PGPM), Post Graduate Global Executive Program in Management (PGXPM), and Post Graduate Working Professional Program in Management (PGWPM).

Great Lakes' PGPM program is a one year full-time management program and offers specialization in finance, IT, marketing and operations. The students have an option of dual specialization. The PGXPM program of the institute is a two year part-time program for senior executives who want to pursue higher learning in formal management education. The PGWPM is a two year management program offered for working professionals with an experience from 2 to 10 years.

Great Lakes will be offering Global Energy Executive MBA in collaboration with C. T. Bauer College of Business, University of Houston. Beginning January 2012 this course is mainly for the Senior Energy Managers for the Indian and South East Asian nationalities to impart energy management skills. It will mainly

cover the areas of nuclear energy and renewable energy such as wind, solar and hybrids which includes shale, natural gas and biomass, among others.

Traditional 2 year MBA program (PGDM) with a batch of 120 people will be launched in the coming academic year. The focus area for our two year PGDM is going to be on emerging economies with internship/ doing a term in emerging economies such as Brazil, South Africa, china, etc.

Great Lakes' Gurgaon campus is known for two year full time MBA program focused on energy sector.

Great Lakes has increased the number of students in the PGPM program from 127 students in the pioneer batch (2004-2005) to 300 in the 2011-12 batch. The institute selects its students on the basis of CAT and GMAT scores and has a prerequisite of minimum two years of work experience. The selection process also involves group discussion and personal interview with the students.

The institute's student population is national in character, with students representing almost all the states in the country with close to 1/3 being girls. In terms of experience, it ranges from 2 years to 9 years, coming from a diverse set of industries such as IT, Manufacturing, BFSI, FMCG, consulting, services, other services, etc.

Infrastructure

The Wi-Fi enabled campus of Great Lakes is spread across an area of over 27 acres consisting of classrooms, library, recreation centre, gym and auditorium. The institute has five fully air-conditioned classrooms with a total intake capacity of 300 students.

Sharing the joy of learning

Prof Bala V Balachandran on the emergence of private Business Schools owned & managed by some of the leading corporates in India

This will be an inevitable trend given the fact government is not in a position to make the kind of investment required for higher education. Private autonomous players some time backed by corporate houses have to stay and with their focus on professionalism and efficiency and a market driven culture they will ensure delivery of good quality at a market determined price. In my view, this is a positive trend.

Great Lakes infrastructure also has a fully equipped resource center having an array of books, journals, magazines, course material, annual reports, case studies and articles. It provides access to literature and electronic databases of EBSCO, CMIE, indiastat.com and others. The resource center of the institute has around 7,500 books, more than 70 print journals, five online databases and more than 9,000 e-journals. The institute also has audio visual facilities.

Great Lakes provides ample avenues for sports and recreation activities through its gym and sports facilities. The institute has indoor and outdoor games facilities which include carom, chess, cricket, volleyball, basket ball and cycling. The institute also

has a food court and round the clock cafeteria.

Great Lakes' hostel rooms are fully air-conditioned with a total intake capacity of 383 members. Girls and boys have separate accommodation with housekeeping services and recreational avenues.

Faculty

Great Lakes has a well qualified and experienced faculty team with a strength of 20 full time and 137 visiting faculty members. The student to faculty ratio is 13:1. The visiting faculties of the institute are from Stanford, Kellogg, University of Miami, University of Chicago and National University of Singapore to name a few.

Placement

Great Lakes campus placement activity witnesses a host of companies from various sectors to hire students. In 2011, there was a 100% placement with an average salary of Rs 945,000 p.a. During 2011, companies from IT, BFSI, consulting and FMCG sectors visited the campus for recruitment. Some of the major domestic companies where the students got placed include HSBC, HDFC, Infosys, Tata Motors, KPMG and Godrej among others.

About the Institute

Mody Institute of Technology & Science, Faculty of Management Studies (MITS FMS) was established in 2004. MITS FMS received accreditation from AICTE, AIU, MHRD as well as UGC in the same year of its establishment.

Academic

MITS has four departments through which it offers 16 courses that include graduate as well as post graduate course. MITS also offers foreign language courses for its students for five languages namely Japanese, French, German, Chinese and Spanish.

MITS FMS offers two year full time MBA programme with specialization in finance, human resource management, information technology, marketing, retailing and banking & insurance. Students can take admission to their MBA programme through CAT, MAT, RMAT, UPMAT, MET and XAT; followed by personal interview.

The MBA programme of the institute is a two year course with two semesters in each year. The programme consists of core and elective courses, project work thesis/dissertations comprising of design projects, planning projects, seminars and practical training. The programme focuses on industrial sector specialisation through electives in addition to the functional specialiaation.

Students and Faculty

The total sanctioned intake capacity of MITS FMS for 2009-2011 batch stood at 116 students. For the 2009-2011 pass-out batch, 31.9% of the students had a commerce background and 95% of the batch were freshers. Majority of the students

in this batch elected Human Resource Management as their specialization.

MITS FMS has a well experienced faculty team; majority of which come from an MBA background. There are 16 full time faculties in the institute; and the student to faculty ratio is 9:1

Infrastructure

MITS FMS has 12 classrooms and three computer labs with 31 computers in each of them. The institute boasts of a well-equipped library with approximately over 10000 books in them.

Placement

The placement activity of MITS FMS witnesses a host of companies from various industries. For the pass out batch of 2011, 55% of students were hired by domestic private companies, 3% by PSUs while 30% chose to start their own entrepreneurship ventures. Some of the prominent companies that were involved in hiring MITS FMS students from various sectors included Bank of Baroda, Axis Bank, Yes Bank, HDFC and Bank of Baroda for Banking profile, Sharekhan and Indiabulls for financial services profile and Abacus for consulting profile. The average annual salary from the private sector stood at around Rs 350,000; while average annual salary from the public sector was Rs 400,000.

Banking seminar organised by NIILM CMS

About the Institute

Established in 1996 NIILM Centre for Management Studies (NIILM-CMS) is one of the premier institutes in the country. NIILM got recognition for its Post Graduate Diploma program from AICTE in 1996 and subsequently PGDM was recognised as equivalent to MBA degree from AIU in 2004. It has entered into academic exchange programs with several foreign universities such as University of Houston, US, Hainan University, China, Srinakarian University, Thailand, University of Poitiers, France. Every year 20 students are selected to attend a European Management workshop at University of Poitiers, France. In addition to its PGDM programme the centre also offers management development programmes for working executives.

Academic

NIILM-CMS offers two years full time PGDM programme with specialisations in the areas of finance, HRM, international business, marketing, operations and information technology & systems management. The two-year full-time PGDM program is split into four phases: basic, consolidation, advanced and concentration. Each phase is of one semester and closes with an end of term examination. The institute has an intake capacity of 240 students for its PGDM programme. The 2009-11 batch of the institute consisted of 120 students. 35% of them were female. The two year PGDM program focuses on action learning, concept building, attitude and soft skills development through a variety of pedagogical methods.

NIILM-CMS has an active Corporate Relations Centre (CCR) which aims at building long-term relationship with the leading corporate houses in the country. In addition the centre also

monitors the job market, continuous track of professional development of each student, organises personality and functional skills development seminars and prepare students for the campus placement. The CCR has a 100% placement record since its inception.

The students are selected on the basis of cumulative score obtained in admission test, group discussion and interview. NIILM considers CAT scores for admission. High scorers in MAT/XAT/ATMA are also eligible. Preference is given to students with prior work experience.

Infrastructure

NIILM-CMS has a Wi-Fi enabled campus in Greater Noida, UP spreads over 2.5 acres of land. The infrastructural facilities of the institute include air-conditioned classrooms, modern administrative block, separate hostels for boys and girls, open air auditorium, computer lab, a library and a cafeteria. The classrooms of the institute are well-equipped with LCD, projectors, multimedia, video and audio systems. The institute has 12 classrooms, each with a seating capacity of 60-80 students. NIILM-CMS can accommodate total of 240 students per annum. The institute has one computer lab consisting of 240 computers supported by laser printers, scanners and other peripheral devices.

The library of NIILM-CMS is well equipped with around 26,000 books and 160 journals. The institute has also subscribed to more than 8,500 online journals, 175 video and audio cassettes and more than 850 CDs. The library has a rich collection of research and industrial reports. The library has institutional membership of a number of prestigious libraries in Delhi like British Council, The

Professor S Neelamegham on management education in India

We, at NIILM CMS aim to provide the students with cutting edge skills and knowledge required for a successful career in business management. Our post graduate programs are designed with this perspective. With a judicious mix of rigor and analysis to tackle the complex business problems with a strong focus on research. The pedagogy that we adopt with case studies, group discussions, industry interfaces and real life problem solving exercises will sufficiently excite you and you will gain confidence to communicate, collaborate and learn.

Our location at Greater Noida offers us a strategic advantage and enables us to have a strong linkage with business and industry. The school with its spacious and aesthetically build modern campus and air conditioned classrooms with latest instructional technology provides a unique and exciting opportunity for potential students.

American Information Center and The Indian Trade Promotion Organization. The library has subscription to internationally acclaimed online database services.

The institute also provides separate hostel accommodation facility for both girls and boys, accommodating more than 240 students per year. The facilities offered by the hostel include AC & Non AC residential blocks, Wi-fi connectivity, janitorial services and stationary store to name some.

Faculty

NIILM-CMS has well experienced and highly qualified faculty members. The institute has 25 full time and 14 visiting faculty members. The student to faculty ratio of the institute is 10:1.

Majority of NIILM faculty members have strong industry background and worked in senior management positions. Several of them have Ph.D and other higher qualifications.

Placement

NIILM-CMS provides placement to its students with companies both domestic and international. Companies from different sectors such as banking and finance; manufacturing; pharmaceuticals; media and advertising; FMCG; consultancies; telecom and retail visited the campus for recruitment of the students during 2011. In 2010, the institute placed 73% of its students in domestic private companies, 17% students in domestic public companies and 4% students in international

companies. The companies that visited include HDFC, American Express Bank, Redington India, Airtel, RIL, HCL Technologies, Hansa Research, Berger Paints, Moolchand Healthcare, Everest Metals FZE and Grasim Industries. Salary offered to students range from Rs 400,000 - 1,200,000.

Industry Visits

NIILM-CMS encourages industrial visits for its students, in order to enable students gain practical insight on workings of varied industries. In addition, the students undertake project studies which help them in gaining first-hand experience in current practices and philosophy. The project study provides a vehicle for integration of learning of functions across disciplines.

REC DMS

About the Institute

Rajalakshmi Engineering College (REC), affiliated to the Anna University, was started in 1997 under the aegis of Rajalakshmi Educational Trust. It is accredited with ISO 9001: 2000 certification. The Department of Management Studies (REC DMS) was established in 2002. REC DMS is an AICTE approved management institute and accredited by the National Assessment & Accreditation Council (NAAC).

Academic

REC has 12 academic departments and offers 10 undergraduate and eight post graduate courses in engineering, technology and management fields among others. The institute offers a two years full time MBA programme with specialisation in finance, human resources management, marketing and systems including dual specialisations. The academic curriculum and syllabi are based on Anna University. Admission to the MBA programme is through MAT, TANCET and REC MBA Entrance exams.

The programme consists of core and elective courses, project work thesis/dissertations comprising of design projects, planning projects, seminars and practical training. The programme focuses on industrial sector specialisation in addition to the functional specialisation. REC DMS also has plans to add a set of value added courses in various sectors such as telecom, banking, retail, software, automobile and hospitality among others in the near future.

Students and Faculty

The total sanctioned intake capacity of REC DMS for 2010-2011 batch stood at 120 students. For the 2009-2011 pass-out batch,

majority of the students (45%) had a commerce background and around one third were female students. 52% and 59% of the students specialised in areas of finance and human resources respectively from the pass out batch of 2009-2011.

REC has a well experienced faculty team; majority of which come from an MBA background. There are 16 full time faculties in the institute; and the student to faculty ratio is 15:1.

Infrastructure

REC DMS has a sturdy infrastructure consisting of seven classrooms; one computer lab consisting of 60 computers and a vast library consisting of 30,000 books. The institute also provides hostel accommodation to 60 MBA students.

Placement

The placement activity of REC DMS witnesses a host of companies from various domestic sectors: both private companies and PSUs. For the pass out batch of 2011, 66% of students were hired by domestic private companies, 14% by PSUs and 2% in the overseas market. 18% chose to start their own entrepreneurship ventures.

Some of the prominent companies that were involved in hiring REC DMS students from various sectors included TCS, HCL Technologies, Polaris from IT industry; ICICI Ltd and HDFC from banking; Flextronics, Lean automotive from manufacturing sector and others such as Baja Capital, Cap Gemini, Sun TV etc. The average annual salary from the private sector stood at around Rs 280,000; Rs 240,000 from the public sector and Rs 900,000 at the international level.

About the Institute

Sharda University, School of Business Studies, (SU-SBS), a venture of Sharda Group of Institutions, was established in the year 2007. The University is approved by UGC and spreads over 63 acres in NCR. The institute is in the process of getting the accreditation from NBA.

SU-SBS has also signed memorandum of understanding with various International institutions to develop scientific, technological, and academic cooperation. Some of the International Universities include Centro De Investigacion Y De Estudios Avanzados Del Ipn (Cinvestav), Mexico Gmit- Galway-Mayo Institute Of Technology, Galway Northumbria University, England Middlesex University, London, UK Tertiary Education Commission Of Mauritius(Tec), Mauritius, etc. SU-SBS has state-of-the-art IT enabled classrooms, library, laboratories and on campus residences for faculty and students.

Academic

SU-SBS offers full time MBA course, MBA in Hospital administration, Post graduate diploma in Hospital Administration, and Integrated-MBA course. The MBA programme offers specialisation in finance, HRM, IB, marketing, operations, IT, and IR. PG Courses in Hospital Administration specifically cover risk, quality, and operations management in healthcare sector as well as health insurance and health economics.

SU-SBS has devised a credit-based system where students have flexibility to choose the course as per their career goals and interest. The school also provides guidance to students about various career options suitable to their talents and interests through

various modes including live one to one counseling.

The 2009-11 batch of the school consisted of 141 students, of which 23% were female, and a majority of the students had a commerce background, thus creating a perfect mix of student profiles. The school accepts MAT, CAT, or GMAT score for admissions, followed by an entrance test viz SURE (Sharda University Record Exam), a GD and a PI. Preference is given to students with CA certification or professionals certified in courses such as CFA and FRM. The school also provides options of foreign exchange programmes to its students. In 2011, 16% students went abroad and SU-SBS welcomed 40% students under the exchange programme.

Infrastructure

The classrooms of SU-SBS are enabled with state-of-the-art IT Infrastructure and fitted with LCD projectors, OHPs, and sound systems. The lecture halls have seating capacity of 200 and tutorial classes are designed for a strength of 30-40 students. The campus as well as student hostels are Wi-Fi enabled with a bandwidth of more than 1 Gbps.

The LAN-enabled campus provides Learning Management System (LMS) which facilitates students to discuss academic topics, submit their assignments online, download their class notes, study through specially designed learning resources, and also refer to reference and digital library. Sharda University has excellent laboratory facilities for carrying out teaching, research and consultancy activities.

The library at Sharda University is well equipped with more than 26,000 books. The institute has also subscribed to DELNET and other internet

School of Business Studies

Prof Ram K Verma on the face of Indian Business School changed over the years

The new millennium is still young and no contemporary development has had more far reaching consequences than globalisation. The breaking down of national, regional and local boundaries and barriers is creating a new world; an exciting, challenging, and opportune "Multi-cultural World". Today we live in "one voice" that shares information, ideas, business, and trade at a lightning fast speed. Managing in this multi-cultural world is very challenging, and success still eludes by leaps and bounds. Also, uncertainties of globalization, emergence of knowledge economy, social inequalities, environmental degradation, climate change, etc. calls for business innovations and managerial capabilities for societal value creation, with a focus on strategic CSR which is based on outcome.

Globalisation of organisations and talent market is one of the key factors affecting management education. Despite this rapid globalisation, business schools are still national or regional in their scope. B-Schools will have to evolve innovative models to develop talent competitive in a global perspective. The strength of B-Schools would be in their intellectual capital and multi-disciplinary practice-based teaching to prepare students for problem-solving ability in this ever changing multicultural society for sustainable development in knowledge based economy. Internationalisation of management education, partnerships with leading B-Schools, exchange of pedagogy and course curricula, and practice-based learning would be the key trends. There will be a greater influence of academic partners from the corporate world in designing curriculum reflecting international standards, and corporate trends and needs.

libraries. In addition, libraries offer other modern aids to Education such as online digital libraries, Audio/Video records of renowned academicians, and significant published material.

SU-SBS has multiple auditoriums, conference halls, and seminar rooms equipped with the latest audio visual facilities for guest lectures, seminars, presentations, etc. The auditoriums have a seating capacity of more than 250 people. The campus has a range of recreational facilities spanning across indoor and outdoor sports facilities, multi-cuisine food court, student activity clubs, etc.

Faculty

SU-SBS has well experienced and qualified faculty members. The School

has 39 full-time, 20 part time, and 12 visiting faculty members. The student to faculty ratio of the institute is 15:1. Majority of the faculty members are PhD or MBA, or from corporate background.

Placement

SU-SBS provides placement to its students with companies in National as well as International markets. Companies from different sectors such as Banking & finance; Investment banking, Marketing, HR, and Operations visited the campus for recruitment during 2011.

During 2011, the institute placed 83% of its students in domestic private companies and 3% students in international companies. The average

salary offered to students placed in domestic private companies was Rs 5,00,000 p.a. and in international companies was US\$ 30,000 p.a. Some of the companies that have hired students include HDFC bank, American Express Bank, ICICI bank, Citi bank ITC Ltd, Future group, HUL, Audi, VIP, LG, Philips, Pepsi Co., Good year, Naukri, Olympus, UFlex, Cargil, Anik group, TCI, F1F9 Everest metals, Metafrigue, etc.
